ABOUT **AMERICAN TARP**

Born out of frustration with weak, overcomplicated tarp systems, American Tarp was engineered by a hauler, for the hauler who understand the needs of the industry. Backed by Roll Off Truck World—the largest refuse truck dealer in Texas—we created a system built to last, not to break. Our tarp system is 100% manufactured in the USA and is designed for real-world durability, ease of service, and simple hydraulics that minimize downtime.

BUILT STRONGER. ENGINEERED SMARTER

- ✓ Ultra-strong container crash bar
- ✓ Heavy-duty Hydraulic Gantry Tower
- ✓ Fully extendable cylinders for all container sizes
- ✓ Jointed arm design = lower shipping cost + extra reinforcements
- ✓ Massive arm pivot points—the toughest in the industry
- ✓ Reinforced, double welded “elbow” side plate
- ✓ Triple Bolt-on chassis supports for easy install with added steel gussets for reinforcement

IT'S NOT JUST A TARP SYSTEM — IT'S AN UPGRADE TO YOUR WHOLE OPERATION.
